

Dry-Ink DIRECT HEAT IMPRINTER

FEATURES

- Lightweight & easy to operate
- Print expiry dates, lot numbers, and much more!
- Clearly prints on any type of poly material
- Easily change your typesets

DY-8B is a lightweight and easy to use hot stamp imprinter. Use this imprinter to print expiration dates, manufacturing codes, lot numbers, and much more! DY-8B can print on poly bags, poly cases, paper bags, aluminum, or other materials. This imprinter provides a clearly printed stamp on your material. Ink dries as soon as it is printed leaving no mess behind. Characters are easy to change.

Imprinter Includes: 1 roll of ribbon (30mm x 110yards), 2 sets of numbers (0-9), 1 set each of "LOT", "EXP", "MFG", 2 open spanners (5.5-7mm and 8-10mm), and a cross-line screwdriver

Additional typesets (A-Z), individual letters, number typesets (0-9) and ribbons (black, blue, gold, red, and white available.
