

Tabletop Shrink Tunnel

FOR EASY SHRINK WRAPPING

FEATURES

- Portable and easy to operate
- Table top model
- 120V
- Shrinks 300-400 packages/hour
- Reduce labor costs

SS-1700AST is an easy to use table top shrink tunnel. **SS-1700AST** plugs into any 120V outlet, unlike most shrink tunnels which require 220V. No need to for costly 220V wiring. Our shrink tunnel is more efficient than using a heat gun to shrink wrap.

Complement the shrink tunnel with one of our I-Bar or L-Bar sealers for a complete shrink wrapping system.

Easy to operate

Simply place package on conveyor belt of tunnel to shrink film tightly around the package.

Sealer not included

SPECIFICATIONS

Power Supply	120V, 50/60Hz, 15 Amp
Dimensions	18" x 14" x 10"
Production	300 pkgs/hour
Max Pkg Size	13" x 17" x 5" (W X L x H)
Temp Range	0-250°F
Weight	40lbs
