

PVC SHRINK BAGS

Rectangular & Dome Bags

Shrink wrapping provides a crystal clear package. It also provides a moisture and dirt barrier extending the shelf life and preventing pilfering. Shrink bags are quick and easy to use and speed up the packaging operation. Simply insert your product into the shrink bag, seal the open end with a sealer, and shrink the film tightly around the package with a heat gun. Vent holes in the shrink bags prevent ballooning. Shrink bags come in rectangular, square and dome shapes, and many other different sizes.

RECTANGULAR & SQUARE shrink bags are ideal for general all purpose applications in industries such as the music, gift basket, publication, media, soap, candle, and many other industries.

Size	Stock Number	Weight (lb)	Thickness (gauge)	Applications
4" x 6"	SB-4-6-100-A	2	100	Cassettes, Candles
6" x 6.5"	SB-6-65-80-A	3	80	CD
6" x 7"	SB-6-7-80-A	3	80	CD
6" x 11"	SB-6-11-80-A	4	80	Video, Candles, Books
6.5" x 10.5"	SB-65-105-80-A	4	80	DVD
8" x 12"	SB-8-12-80-A	6	80	Video, Software, Books
9" x 14"	SB-9-14-80-A	7	80	Booklets, Video, Magazine, Literature
12" x 10"	SB-12-10-100-B	5	100	Photographs
12" x 16"	SB-12-16-80-B	6	80	Mailers, Reports
12" x 18"	SB-12-18-100-B	8	100	Legal Size, Calendars
14" x 18"	SB-14-18-100-B	8	100	Computer Reports
18" x 24"	SB-18-24-100-C	7	100	Reams of Paper, Poster, Large Print

**An alternative way to make spectacular gift baskets using rectangular, square, or dome shape shrink bags is to allow enough film material on top so a ribbon can be tied in place. Then heat shrink the bag around the basket.*

DOMESHAPE shrink bags are commonly referred to as gift basket bags as they are designed specifically for oval and round shaped baskets. The arc of the shrink bag will fit perfectly around the curvature without leaving "dog ears." The bags are in 100 gauge thickness and have shrinkage properties of MD 30-35%, TD 45-50%.

Size	Stock Number	Weight (lb.)
14" x 18"	DB-14-18-B	8
16" x 18"	DB-16-18-B	9
20" x 22"	DB-20-22-C	7
22" x 20"	DB-22-20-C	7
22" x 24"	DB-22-24-C	9
24" x 30"	DB-24-30-C	10
26" x 28"	DB-26-28-C	10
28" x 28"	DB-28-28-C	10
28" x 40"	DB-28-40-C	15

A - 500pcs/box
B - 250pcs/box
C - 100pcs/box

To determine the bag size you need:

Measure the package around its widest point, add 10% to the number, and divide by 2 to determine the width of your bag. Measure the package around its tallest point, add 10% to the number, and divide by 2 to determine the height of your bag.

If the size you need is not available, a larger size can be used because the shrink bag has a 50% overall shrink ratio.

Note:
MD (Machine Direction) - vertical or length shrinkage
TD (Transverse Direction) - horizontal or width shrinkage
