

HEAT GUNS

HG-1001 and CY-150 are economical heat guns for the low volume shrink wrapping user. They shrink PVC, POF, PET, or PP film uniformly and tightly around objects to produce a form-fitting tamper proof package.

The heat guns are equipped with two temperature settings: **low** is in the range of 600°F-700°F and the **high** is the range of 900°F -1100°F. The heat guns are UL listed and have a 90 day warranty.

HC-1001

CY-150
