Versatile - Easy To Use - Great Value

- Plug-in electronic timer for variable control
- All metal construction
- No warm-up time
- Option: Sealers with sliding cutter
- Option: Round wire option available for shrink wrapping applications

Our **KF-Series Hand Impulse Sealers** seal poly bags and other thermoplastic materials quickly and efficiently without any warm-up time. Depending on the model of the machine, material up to 20" wide and 20mil total thickness can be sealed. The sealers are equipped with a plug-in electronic timer which controls the different sealing times needed for the varying thicknesses of different materials.

Cut and Seal Applications: Round wire heating elements are available for shrink wrapping. When ordering, add the letters rnd to the model number. (Example: 12" hand sealer with round cut wire – KF-300Hrnd.)
