

# HOUSEHOLD NOZZLE VACUUM SEALER

Model: DZ-290P

sealersales

Only household vacuum sealer utilizing **standard** vacuum bags

- Self-contained unit
- Used for light commercial packaging
- Uses any poly-nylon vacuum pouch (no expensive channel / embossed bags)

SINBO stands out as the exclusive lightweight vacuum sealer in today's market, employing regular poly/nylon vacuum pouches. It excels in vacuum sealing food, industrial goods, medical supplies and more.

The sealer employs an impulse sealing system, eliminating the need for warm-up time. It can effectively seal poly/nylon vacuum pouches up to 11" in width. Operating options include both vacuum and seal, as well as seal-only functionalities.

Moreover, the SINBO is capable of vacuum-sealing even liquids, and it operates without requiring an external compressor since it is self-contained.

There is no requirement to invest in costly channel/embossed bags, as any standard vacuum-compatible pouch suffices. The SINBO device is not only energy-efficient but also compact and easily portable.

SPECIFICATIONS	DZ-290P
POWER SUPPLY	110V/60HZ
VACUUM PRESSURE	~0.07-0.075 Mpa
SEAL LENGTH	11"
SEAL WIDTH	4MM
VACUUM & SEAL TIME	1-99 SECONDS
CAN SEAL LIQUIDS	YES
WEIGHT (LBS)	7
SHIPPING DIMENSIONS (L X W X H):	14" X 5" X 3"
