

Ideal for any type of palletized loads

The SPW-4510R semi-automatic robotic pallet stretch wrapping machine is a self-propelled machine for wrapping palletized loads of any shape, weight, size with stretch film in less than a minute. A 5,000 ft roll of machine film becomes 17,500 feet of film applied to the load at 250% pre-stretch, with this type of film yield it is very easy to cost justify the purchase of one of these machines as the ROI is very short!

More Details:

- Up to 250% pre-stretch which increases utilization and efficiency while decreasing material costs
- Easy to program electronic controls that are highly customizable to your needs
- Wrap pallets up to 84" high
- Unit will wrap 250+ pallets per charge
- Rotation speed up to 250 ft per minute
- Easy way to wrap standard or oversized and non-square pallets
- Minimum pallet size 24" x 24" / 100Kg (220lbs)
- Five pre-set wrapping cycles and the possibility of programming an unlimited number of options
- Automatically test the pallet height, wrapping times adjustable
- Adjust the pre-stretch ratio and tension via change the pre-stretch gear
- Electronic and magnetic systems controls the prestretch tension and speed automatically
- 1 year limited warranty

Specifications:

POWER	110V 60HZ 1PH 10AMP
BUILT-IN CHARGER	110V / 50/60HZ
MIN PALLET DIMENSIONS	24" X 24" / 600MM X 600MM
MIN PALLET WEIGHT	220-LBS / 100KG
STANDARD PALLET HEIGHT	78.7" / 2000MM
CHARGING TIME	12-HOURS
BATTERY CAPACITY WORKING TIME	8-HOURS
BATTERY	100AH(12VDC) X 2PCS
MACHINE WEIGHT	704-LBS
MACHINE DIMENSIONS	65"L X 56"W X 88"H
