## More Information:

The SS-Series Semi-Automatic L-Bar Sealer is a heavy duty production based unit designed to run 2 shifts per day if needed. With its heavy duty frame construction, cast aluminum seal head and Hot Knife Seal Technology you will get years of use with minimal repairs. This machine is capable of operating at speeds of 10-15 PPM.

The SS-HK series is a proven workhorse with thousands of machines in the field successfully running since 1993. Our 20 plus years of experience as the industry leader in manufacturing semi and fully automatic L-Sealers will give you the peace of mind knowing you have purchased the best machine available on the market today! Our mission is to provide our customers with the latest technology and a user friendly machine that is efficient and easy to maintain. The SS-series sealers will provide you the lowest total cost of ownership available in the market. We partner with a nationwide network of highly trained packaging distributors in order to better serve our customers. This partnership provides a support structure to ensure a smooth startup, reliable local service and a long term return on your machinery investment.

# SEMI-AUTOMATIC L-BAR SEALER

## HOT KNIFE

Model: SS-HK Series

The Hot Knife Sealing Technology is the most advanced seal system available on a semi-automatic L-Bar Sealer. This PTFE-coated sealing blade is guaranteed not to break for one full year or we will replace at no cost. PTFE coating allows the film to seal with minimal smoke or residue and produces straight seals with no pinholes. It is simply the best seal system on the market
