

Heavy duty system capable of two shifts per day

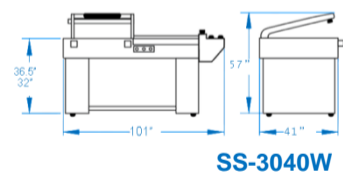

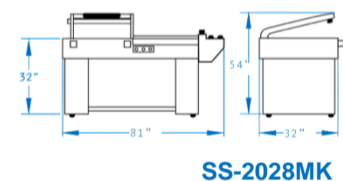

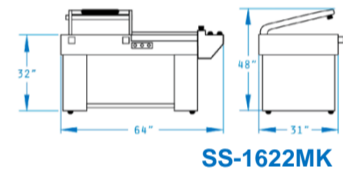

- Micro Knife Band Ribbon Seal (SS-3040W - .036 sealing wire)
- Motorized Discharge Conveyor
- Stainless Steel Compensator
- Seal and Magnet Timer
- Seal Head Return Cylinder
- Dual Magnet Hold Down
- Stainless Steel Film Clamps
- Pin Wheel Hole Punch
- Discharge Conveyor Timer
- Locking Casters
- Powder Coated Frame
- Transition Rollers on Discharge Conveyor
- Film Roll Guides
- Film Roll Brake to Prevent Over-Winding
- Recommended Film: POF (PVC not recommended)

More Information:

The SS-Series Semi-Automatic L-Bar Sealer is a heavy duty production based unit designed to run 2 shifts per day if needed. With its heavy duty frame construction, cast aluminum seal head and Micro Knife Seal Technology you will get years of use with minimal repairs. This machine is capable of operating at speeds of 10-15 PPM.

The SS-Series Semi-Automatic L-Bar Sealer is a proven workhorse with thousands of machines in the field successfully running since 1993. Our 20 plus years of experience as the industry leader in manufacturing semi and fully automatic L-Sealers will give you the peace of mind knowing you have purchased the best machine available on the market today!

Our mission is to provide our customers with the latest technology and a user friendly machine that is efficient and easy to maintain.

Micro Knife Sealing

The Micro Knife Sealing Technology is the most advanced seal system available on a semi-automatic L-Sealer. This PTFE-coated sealing blade is guaranteed not to break for 1 full year or we will replace at no cost. PTFE coating allows the film to seal with minimal smoke or residue and produces straight seals with no pinholes. It is simply the best seal system on the market today.
