

Great for accumulating smaller packages & products

- Turntable speed adjusts from 0 to 12 RPM
- Plugs into any 110V outlet
- Includes adjustable leveling screws
- Holds up to 200-lbs of product
- 3" deep table top
- Available in 36", 48", or 60" diameter
- Options: stainless steel

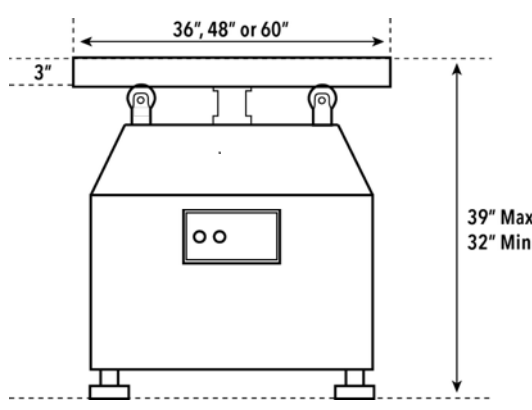

More Details:

If you're looking for a reliable and convenient way to handle smaller packaged and shrink wrapped products as they leave your machine, consider using the SS-36LS Lazy Susan Product Accumulating Turntable. This particular model is 36" in diameter and can be set up to turn at a speed of 0 to 12 rounds per minute.

This is a nice alternative to a conveyor, where smaller items would normally fall through the cracks. The SS-36LS can be plugged into any standard 110-volt outlet. The accumulator table sits on top of high-quality bearing rollers. The adjustable leveling bolts allow you to match any conveyor line height. The spinning movement is smooth and even.
