

# FOOT SEALER *with* CUTTER

YC-450FC, YC-600FC

## YC-SERIES

YC-Series foot sealers feature a sliding cutter and a U-shaped sealing bar - an ideal sealer for poly tubing. The sealers are available in 18" and 24" with a cutting length of 15" and 21" respectively. The seal width is 3mm. The unit has a rectangular steel frame stand. The manufacturer replacement kit includes 2 elements and a knife.

Foot-operated sealers are ideal for high volume poly bag & other thermoplastic sealing. This sealer is capable of sealing 15 to 20 bags per minute. It allows the user to keep both hands free for quicker and more accurate sealing. The sealer is also equipped with a plug-in timer. The timer controls the sealing time needed for different materials. Once the timer is set, it will give a consistently flat seal. LED or signal light on timer turns off when seal is done.

### ***Easy to operate:***

Set the timer. Insert the bag between the sealing bars, press down on the foot board, & release it after timer light turns off. To enhance the appearance of the seal, hold the pedal down for an extra 2 seconds after the timer light goes off.

	YC-450FC	YC-600FC
Voltage	110V	110V
Impulse Power	450w	600w
Seal Width	3mm	3mm
