

Easy, Affordable Sealer for Small Productions

- Compact, easily fits most spaces
- #304 stainless steel frame construction
- Digital temperature controller
- Heated top platen with easy pull-down handle
- Will run either APET or CPET trays
- Includes one set of tooling with each machine

Our “EASYTECH” series of manual tray sealers are a fast and easy way to seal small quantities of trays at an affordable price.

Simply load the tray into the tray cavity, pull the film roll from the back of the machine over the tray to completely cover the tray, pull down the handle of the heated top platen and apply pressure to produce a seal, release the handle and the top platen is spring loaded and will automatically return to the up position, remove sealed tray to complete the sealing cycle.

Features digital temperature control and is constructed in #304 Stainless Steel. Machine will run CPET or APET trays.

*One set of tooling included with machine purchase. Additional tooling available.
