

Our most versatile band sealer: suitable for nearly all bag sizes

Introducing our HL-M1120LD - the ultimate solution for all your thermoplastic sealing needs! With its unparalleled versatility, this band sealer can quickly and efficiently seal any material from stand-up pouches to gusseted bags. Perfectly suited for use in the food, medical, and cosmetics industries, the HL-M1120LD is a must-have for any business looking to streamline its packaging process.

Featuring an adjustable sealing head and conveyor, our sealer can accommodate bags of all sizes, with a maximum height of 27" and a weight capacity of 33-lbs. Constructed from durable stainless steel, this unit is built to last and can withstand even the toughest of applications. With a fast warm-up time and solid-state digital temperature controller, you can be sure of consistent seal quality every time. So why wait? Upgrade your packaging process today and experience the difference for yourself with the HL-M1120LD - the ultimate band sealer for all your thermoplastic sealing needs! Contact us now to get a quote and find out how we can help your business thrive.

Standard Features:

- Durable stainless steel construction
- Easy to operate – minimal operator training
- Fast warm up time
- Ideal for medium to heavy duty applications
- Solid state digital temperature controller to maintain seal bars at proper temperature for consistent seal quality
- Motorized rubber conveyor for speed control
- Knurled pressure rolls with variable pressure adjustment
- Sealing method – constant/direct heat accompanied with a pair each of cooling and heating blocks
- Fully adjustable conveyor
- Unit feeds right to left
- Spare parts includes: PC Board, PTFE belt, wheel belt, fuse, motor brush, heating element, silica gel ring, silicone pin, and type set

Options:

- Dry ink coding – font size – 10.5PT (standard is 18PT)
- Left to right feed (Item No. HL-M1120LD_LtoR)
- Digital counter to keep track of sealed packages
- 220V Voltage
