

Ideal for sealing longer packages

- Ideal for high volume sealing
- Plug-in electronic timer for variable control
- All metal construction
- Heavy duty
- No warm-up time
- Sits on rectangular base for stability

More Details:

Our W-Series long foot sealers are ideal for extra-long high-volume poly bag sealing. Available in 30" and 35" lengths with a 2.7mm seal, the W-Series foot sealers are capable of sealing 15-20 bags/minute. These sealers allow you to keep your hands free for quicker and more accurate sealing. Once the timer is set, the sealer provides a consistently flat seal.

Sealer is equipped with a 26" steel frame for added safety and stability. A height adjustable working plate is also included. The manufacturer’s replacement kit includes two elements. An optional round element is available for seal and cut applications. A taller stand and tension rod is also available, adding 10" in height.

Easy to Operate:

Set the timer. Insert the bag between the two sealing bars and press down on the foot board. Hold down the foot board for an additional 2-3 seconds after the timer light goes off to set the seal.

Specifications:

	WN-750F	WN-900F
Power Supply	110V / 400W	110V / 600W
