

Ideal for sealing thicker materials

- Ideal for high volume sealing
- Plug-in electronic timer for variable control
- Control settings for sealing and congealing time
- All metal construction
- Heavy duty
- No warm-up time
- Sits on rectangular base for stability
- External compressor required
- Emergency stop switch
- Pressure adjusting filter
- Via special order

More Details:

WNC-905T is a 35" double impulse foot sealer, ideal for sealing thicker materials. Unit is equipped with a 5mm seal width, the W-Series foot sealers are capable of sealing materials up to 20mil total thickness. WNC-905T is equipped with a steel frame for added safety and stability. A height adjustable working plate is also included. The manufacturer's replacement kit includes two elements. Working height is 30". The WNC-905T is pneumatically operated and will require an external compressor to operate.

Easy to Operate: Set the timers for sealing time (heating time) and congealing time (cooling time). Insert the bag between the two sealing bars and press down on the foot board. Press down on the foot switch to activate sealing bar.

Additional options (seal lengths, seal widths) are available.

Features:

	WNC-905T
Power Supply	220V / 50Hz
Watts	1900W
Seal Length	35.4"
Seal Width	5mm – Dual heat
Standing Height	33 ½"
Tray Dimensions	12" x 6"
Tray Adjustment Height	Up to 6.5"
Throat Depth	1 ½"
External Compressor Requirements	5-7kgs/cm ²
Dimensions	TBD
Weight (lbs)	TBD
