- All metal construction
- Heavy duty
- Sits on rectangular stand for stability

More Details:

Our W-Series Right Angle Foot Sealer is a foot sealer that allows operator to seal anywhere on the bag. The foot sealer is ideal for high volume poly bag and other thermoplastic sealing. These sealers are capable of 15-20 seals per minute and allow the user to keep both hands free for quick and accurate sealing.

What sets this foot sealer apart from all other foot sealers is the position of the sealing jaw. Because the jaw is on the side, you can seal your bag anywhere, not just at the top or bottom of the bag. This allows much more flexibility.

This unit is available via special order only.
