

Make bags out of poly tubing

- Ideal for high volume poly bag and other thermoplastic sealing
- Capable of 15-20 seals per minute
- Allows the user to keep both hands free for quicker and more accurate sealing
- Seal width – 5mm
- Can seal and cut materials up to 18” and 10 mil total thickness
- Plug in timer to control sealing time needed for different materials
- Impulse seal – timer will automatically turn off
- Consistently flat seal
- 24” model (WNR-600FC) available via special order

Easy to Operate:

Bag Sealing – Set the timer, insert the bag between the sealing jaws, press down on the foot pedal. Hold the foot pedal down for an few extra seconds to ensure enough time for seal to cool and set.

Plastic Tube Sealing – Set the timer, pull the film tubing positioned on the film roller through the sealing jaws of the sealer. Press down on the foot pedal, slide the cutter across the tubing and release after timer goes off.

Shrink Wrapping – Change the heating element to a round one, set the timer, and pull the shrink film from the film roller through the sealing bars. Insert the object between the folds of the film, press down on the foot pedal and slightly tear away the film from the sealer. Insert the opened edge of film between the jaws and seal the package again. Heat shrink the package evenly with a heat gun.

Features:

Power Supply	110V / 50Hz
Watts	600W / 10Amp
Seal & Cut Length	18”
Seal Width	5mm
Weight	95-lbs
Shipping Dimensions (L x W x H)	41” x 29” x 20”
